

# Our network.

## Coast-to-Coast Network Access

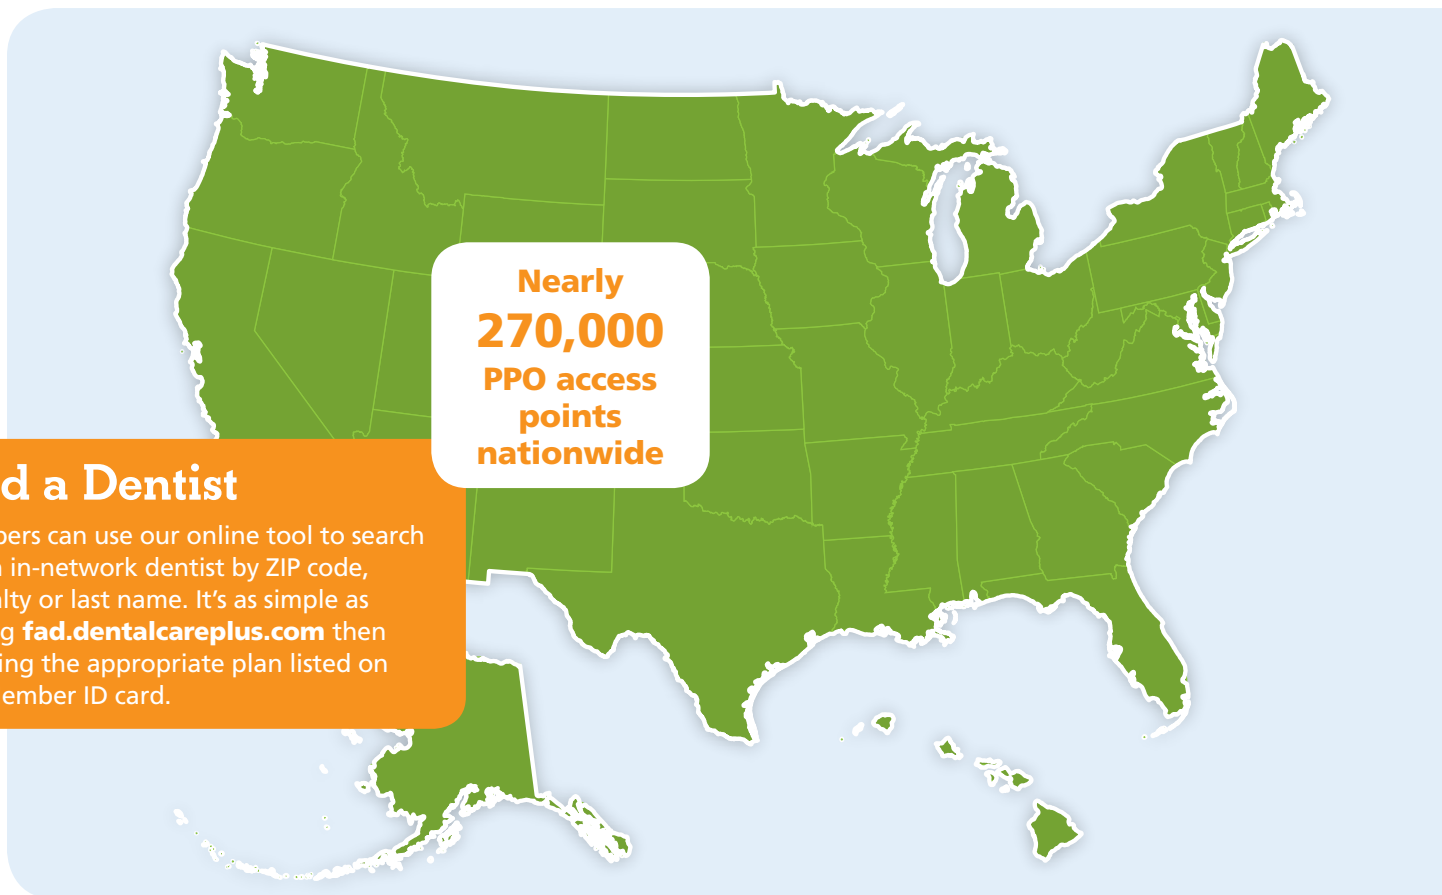

*The Dental Care Plus Group's growing provider networks mean more viable plan design options for employers and increased access for their enrollees. We coordinate with our customers to offer a dental benefit plan to meet their network access needs — locally, regionally or nationally.*

### **Nationwide Access**

Our dental plans are available to groups sited in Ohio, Kentucky, Indiana and Tennessee. For multi-sited groups, DCPG's PPO plans offer a nationwide network giving members access to nearly 270,000 PPO provider access points.

### **Growing Provider Networks**

As DCPG continues to expand, we remain committed to growing our provider networks, ensuring more options for members. What started as a local network of dentists has grown to include 95 percent of practicing dentists in the Greater Cincinnati/Northern Kentucky region. Additionally, our national numbers continue to grow. We patiently recruit dentists to join our networks through consistent communication and follow-up.
