

Our network.

Coast-to-Coast Network Access

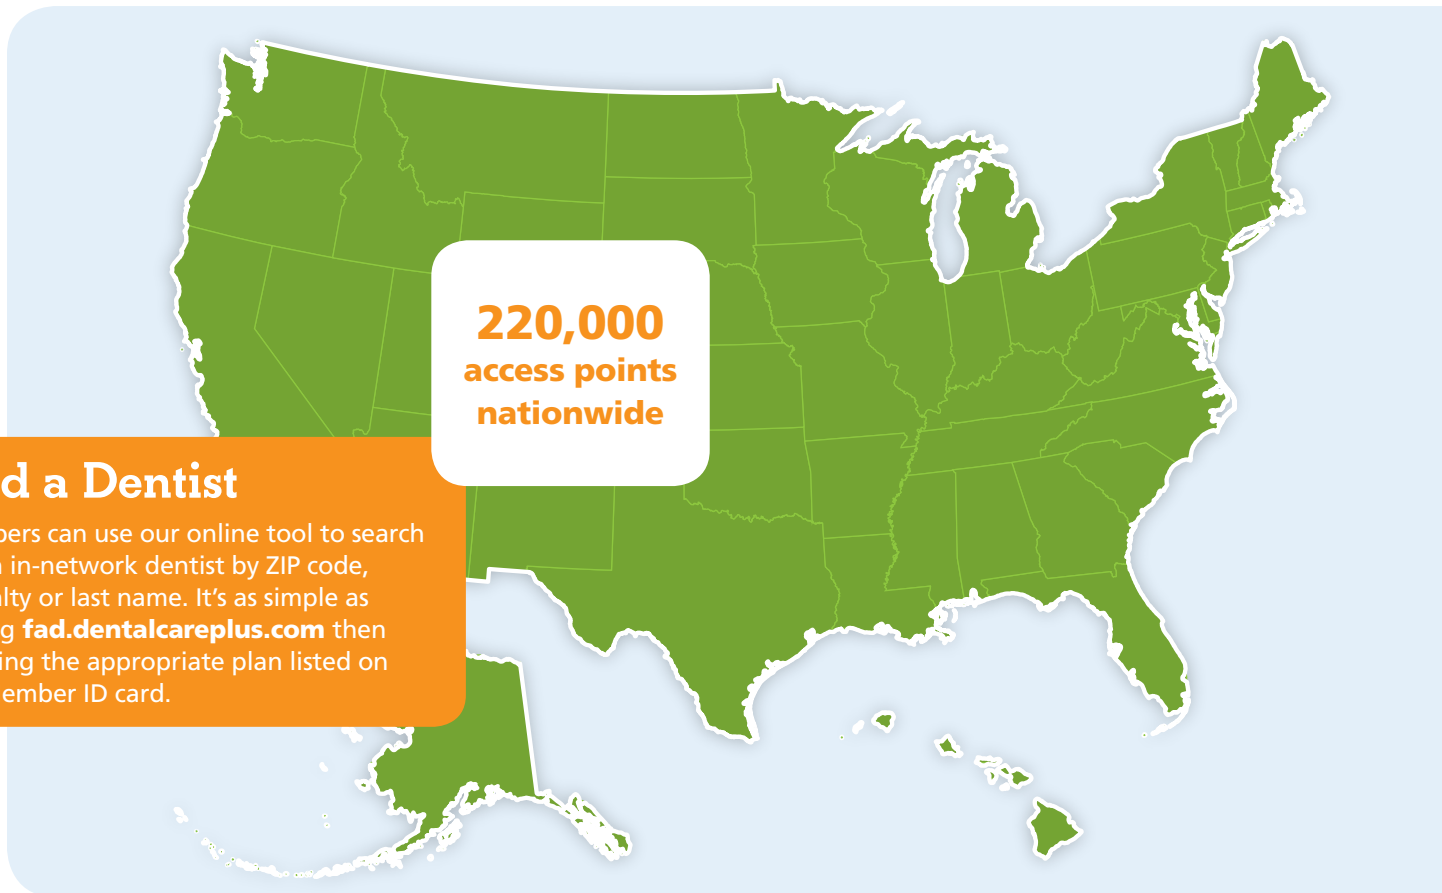

The Dental Care Plus Group's growing provider networks mean more viable plan design options for employers and increased access for their enrollees. We coordinate with our customers to offer a dental benefit plan to meet their network access needs — locally, regionally or nationally.

Nationwide Access

Our dental plans are available to groups sited in Ohio, Kentucky and Indiana. For multi-sited groups, DCPG's PPO plans offer a nationwide network giving members access to 220,000 provider access points.

Growing Provider Networks

As DCPG continues to expand, we remain committed to growing our provider networks, ensuring more options for members. What started as a local network of dentists has grown to include 95 percent of practicing dentists in the Greater Cincinnati/Northern Kentucky region. Additionally, our national numbers continue to grow currently exceeding 220,000 provider access points. We patiently recruit dentists to join our networks through consistent communication and follow-up.
