

## Balanced Value

The Dental Care Plus Group (DCPG) offers the Balanced Value (BV) network as an affordable, narrow network option available with the PPO product.

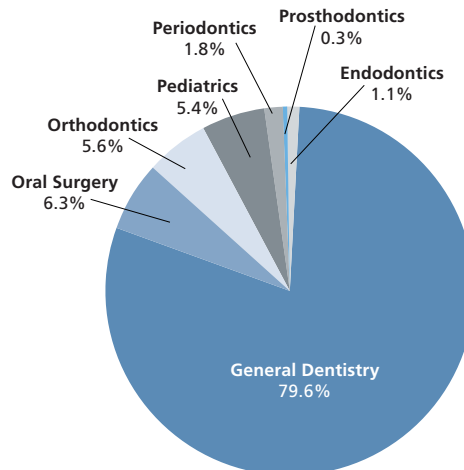

Although it's a narrow network, provider participation in the BV is substantial. In fact, 60 percent of the providers currently participating in the Dental Care Plus (HMO) network also participate in the BV network.

Additionally, the composition of the Balanced Value network – in terms of the percentage makeup by specialist – is on par with other DCPG network offerings in the original eight-county service area.\*
