

# QUALITY COVERAGE FOR INDIVIDUALS

Choosing the right dental insurance plan should be easy. While it may be tempting to make the decision based on one factor alone, it is not always the best answer. For example, if you made a purchase decision based only on cost, you might find that any short-term savings could lead to greater out-of-pocket expenses later.

Understanding and comparing the plan features offered by different carriers is KEY to finding the dental insurance plan that best fits your needs. While certain product features can help save money on future treatments, others can add to the convenience of your experience.

Every plan from DCPG comes with the following features. Ask yourself: **how do other carriers compare?**

DCPG Plans	Other Carriers	Benefit to You
✓		No benefit waiting periods on preventive benefits
✓		Composite restorations (white fillings) on all teeth, including posterior (back) teeth
✓		No six-month wait between cleanings or oral evaluations
✓		Personalized ID cards printable immediately upon enrollment
